## About Washington Real Estate. EQUITABLE

In referring to the marvelous and unprec-edented growth of Washington, we feel that we can add nothing to the brilliant remarks made by the Congressmen, Rep-resentatives and prominent business men at the recent banquet given by the "Wash-ington Bord of Trade." One of them said: "Washington is surely destined to be the most beautiful city on the habitable globe." Continuing, he said: "We must not think it belongs to Washingtonians alone, for the 65,000,000 of American people have a proprietary interest in it as their nation's capital." Washington is fast becoming (if it is not already) the center of science, fashion and literature. It is hard to realize the rapid growth of Washington. Where but a decade ago the

crack of the sportsman's rifle was heard there stands today some of the most fashion-able and palatial residences to be found in

will double its population within the next ten years—a prediction fully warranted by the past ten years. INVESTMENTS IN REAL ESTATE MAY BE

DIVIDED INTO THREE CLASSES.

First. Vacant ground in large and small quantifies, either in the city or adjacent to it, which is steadily increasing in value.

Second. Improved properly that is well rented, paying a fair interest on the amount invested, and at the same time increasing in

Third. The safe investment of a large amount of money in a business property paying a good percentage on the money in-vested. This class of property is very desircus for estates and capitalists who prefe steady income rather than a specula-

Under these three heads I present the fol-lowing, taken from my books, to which I invite your attention, and which I teel safe CLASS 1-VACANT GROUND.

187 acres of land within the 3-mile circle of the city's center, posses ing very valuable possibilities in more than one direction, and will beyond doubt arrely increase in value. Land no better in any respect in the same relative distance is held at from fifteen to twenty thousand do lars an acre. The property I am now offering for sa'e can be bought for \$500 per acre, and will in a short time be worth as much as any acre age property in the vicinity of this city. A small cash paymen, and de erred payments at 5 per cent on long time will be accepted

Tract of ground situated at the head of 16th street and Meridian Hill, overlooking the entire city, the Potomic river and the hi is of Maryland and Virginia. Has a frontage of more than 350 feet on 16th street by a depth of 150 feet fronting directly on the new Hancock Circle. This is a mas nificent piece of property which as the city develops will more than double in value and prove to be the most beautiful resident ite in the city. This piece of property I can sell for \$3 per sq. ft.

### CLASS 2-BUSINESS PROPERTY.

A large business building on F st. near 9th. More people pass this corner than any other one in the city. The building has a frontage of 45 ft. by a depth of 113 ft. and opens in the rear on to a 30-ft. paved alley. It is occupied by the best of tenants and the rentals amount to about \$6,000 per annum The location is such as to make it absolutely sure that this property will increase in value, while the present rental pays a very fair income on the price at which the prop-erty can now be bought—namely, \$130,000.

Very snug little piece of business property situated on the corner of 12th and G sts. n.w., having a frontage of 25 ft. on G st. by a depth of 95 ft. 11 in. on 12th st., being one of the most desirable corners in the business center of the city, bringing a rental of \$2,700, and can be bought for

### CLASS 3-INVESTMENT PROPERTY.

Under this head I have several opportuni ties for safe investments. Among my cit-ents are merchants of perfectly reliable standing, who will lease business buildings erected for them, giving ample security for the prompt payment of rent and also paying a good percentage on the capital in

President Harrison Has Received the Los Draft for His Salary. A few days ago President Harrison received JOISTS AND STUDDING, \$1.30 PER 100 SQ. FT.

his last month's pay in the shape of a draft for \$4,166.67, issued on a warrant to the treasurer, signed, as usual, by the Secretary of the Treasury and sent over to the White House by a messenger. Today he received another draft for \$416.65, issued by the Treasury Department in the same way, representing his pay for service as President of the United States for the first three days of March and closing his account with the government. Notwithstanding the fact that he will be President up to noon of the 4th of March, Gen. Harrison of the 4th of March, Gen. Harrison will receive no pay whatever for his services on that day for the reason that the federal accounting officers do not recognize divisions of a day in the settlement of secounts of salaries. Each incumbent of the office of President is paid the salary of that office beginning with the day of his inauguration, so that he gains in the beginning of his term what he losed in the end. This arrangement was followed at the last change of administration and at its predecessors and is so fair and reasonable that it is not likely to be changed.
